### Lighting and Visibility

Enhanced safety features include bright front and rear LED lights, which are essential for riding in low-light conditions. The front light is powerful enough to illuminate the path ahead, while the rear light acts as a brake and running light.

Additional reflective decals on the scooter increase visibility, making it safer to ride during dawn, dusk, or night.

## Portability and Storage

The rad2go q excels in portability. Its foldable design allows riders to carry it onto buses, trains, or into offices with ease. The lightweight construction, combined with a carry handle integrated into the frame, makes transportation effortless.

When folded, the scooter can be stored in compact spaces?such as under desks, in closets, or in car trunks?without occupying excessive space. This makes it a practical solution for urban dwellers with limited storage options.
