Suman is believed to have ancient roots in the Philippines, predating Spanish colonization. Historically, indigenous Filipinos cultivated sticky rice (known locally as "malagkit") and used coconut milk and other native ingredients to create a range of rice-based desserts. These recipes were often prepared during harvest festivals, religious ceremonies, and communal gatherings, symbolizing gratitude and unity.

Regional Variations and Naming Conventions

The term "suman" encompasses various forms across the archipelago, each with unique characteristics influenced by local ingredients and cultural practices. For example:

- Suman sa Lihya (with lye water, giving a distinct texture)
- Suman Moron (with caramelized coconut sugar)
- Suman Batwan (using glutinous rice and banana leaves)

Ekanki Suman, in particular, is distinguished by its presentation and specific preparation style, often associated with particular regions or communities.
